The gaming history regarding your Rewards Club Member card account is the cumulative win or loss amount from gaming activity for which your Rewards Club Member card was used. A positive number indicates the amount you have won, while a negative number indicates a loss.

The information provided is recorded using the player performance system, which is utilized as a marketing tool, and the casino makes no representation as to the accuracy of this information. The information provided is based solely upon play using the Rewards Club Member card and does not reflect wins or losses from games not accepting the Rewards Club Member card or of instances where the Rewards Club Member card was not inserted or used properly.

This statement is not designed to replace a gaming diary which the IRS recommends each player keep with important information such as dates of play, machine or table numbers, jackpot amounts and total wins or losses. Consult your tax advisor to utilize this document or a gaming diary in preparing tax returns.

A Win/Loss statement is not a substitute for tax document information. Reportable tax documents may be requested on this form also, by checking the appropriate boxes.
